

**Istanbul Okan University**

**Faculty of Engineering**

**HONOUR CODE for the MATH216 first midterm exam**

I, (print your name and student number) \_\_\_\_\_  
\_\_\_\_\_ have not discussed the problems during the exam with any other student or other sources. The work done on this exam is solely my own and I have not given nor received aid that is inappropriate. Examples of inappropriate behavior that are unacceptable include (but are not limited to) the following: copying someone else's work, using the internet to find problem solutions, and asking another teacher, student, or online resource to help with the exam questions while misrepresenting that this is a graded individual exam for which such help is not allowed.

I understand that if found in violation of these principles I will receive a zero on this assignment and be reported for academic dishonesty in accordance with the disciplinary policies of Istanbul Okan University.

I am returning this statement with my name and signature to the instructor of the course. I understand that if I fail to return the signed Honor Code, I accept my work to be evaluated as zero from the exam.

Signature \_\_\_\_\_

Date \_\_\_\_\_

(Sign (write your name) and date the Honour Code when you submit your work.)
